NORA NOW:

The oil heat industry across the country is working to ensure a brighter future by raising public awareness and support for legislation that would renew and strengthen the National Oil heat Research Alliance program, or "NORA." The New England Fuel Institute (NEFI) has joined forces with other oil heat associations and industry advocates to develop a new advocacy website www.SupportNORA.org to support reauthorization of NORA. Please visit the site for more information and continue to urge your lawmakers to co-sponsor H.R. 1756 and S. 949 during the August recess. If you have sent letters to your Congressional delegations urging support and co-sponsorship of NORA reauthorization, please share copies of those letters with PMAA.
