

2015-16 Teamwork: The Fuel to Success

# WPMA President's Message

## Teamwork ...

by WPMA President, Brad Bell

*First of all, I would like to say Hello to all WPMA members and readers,* and thank you for the time and money you put into supporting your state association. Your membership in your state association greatly benefits the industry, and your company as well. I also appreciate your support of WPMA through attending the National WPMA Convention and Tradeshow. WPMA is a premier national trade association that assists our seven western state associations in administering their programs, distributing legislative information, and providing convention and membership services.

Moving up in the chairs of WPMA is a great honor and privilege. In my business TEAMWORK is our key to success, and the WPMA staff and Board are a great example of Teamwork. One of my favorite quotes is:

***“Teamwork, it is the Fuel that allows common people to attain uncommon results”***

This year I look forward to this type of teamwork with the WPMA Board and staff. Looking into the future, I would like to see the next several generations of leadership get involved in their state association. This is the future of the industry, and every member’s business. If we do not inspire our next generation to be involved at the state level, we will open the door for poor legislation and decisions that will directly impact our business and industry as we know it today. I ask all members to encourage the next generation to get involved in our industry.

Immediate Past President Lary Poulton passes gavel to incoming President Brad Bell
