

\$4,000 Scholarship Offered to High School Seniors

Do you have a graduating high school senior who is interested in pursuing more education? If you are a full-time employee of a WPMA member company, your son or daughter may be eligible to apply for the WPMA scholarship, which is available only to the children of association member companies' employees.

A \$4000 scholarship is awarded every year to one student applying through a WPMA member company in each of the WPMA states, for a total of seven scholarships. The student must live in the WPMA state where the association membership resides. One scholarship is also awarded to

a student applying through a WPMA associate member company.

In selecting the recipients, not just academic achievements are considered. The student's extra-curricular activities, community involvement, and financial need are also taken into account.

If your high school senior could use extra money for college, university or vocational training, have them apply for the \$4000 WPMA scholarship. Don't miss this opportunity to let WPMA assist your child in his or her educational goals for the future.

Request a WPMA Scholarship Application

The Western Petroleum Marketers Association is taking applications for the next school year. Applications are due by March 1.

To obtain an application, log on to www.wpma.com, and click the Scholarship Info tab on the home page. A copy can also be obtained by e-mailing your request to kathym@wpma.com.
