

Dear MPMCSA Members,

As your newly appointed PMAA representative, I am asking for your support of the Small Business Committee PAC for PMAA (Petroleum Marketers Association of America). PMAA is our national organization representing all of us on federal issues that can have a huge impact on our business.

What does PMAA mean to us in Montana?

- Easy way for our large state with rural communities to make a difference at the Federal level because PMAA has a dedicated staff in Washington, DC.
- PAC contributions are made to candidates who are supportive of our industry, very similar to what we do at a state level.
- Grass roots works! Our budget is small and every dollar we raise is very effective!

PMAA works for you on many issues such as – RFS Reform, Ozone Standards, Leaking Underground Storage Tank (LUST) Program, Transportation, Menu Labeling , E-Vapor Regulation and Predicate Date, Swipe Fees, Biodiesel Blender’s Tax Credit and many more. Show your support today!

PMAA has made it easier to donate today. Got to [pmaa.org](http://pmaa.org) and click on "donate to PMAA's SBC PAC" towards the top of the page. Use PMAAMT as the password, quick and easy.

You can still send in with the brochure or mail to me at the address below.

Remember, it needs to be a personal contribution.

I want to thank those who have contributed already this year and encourage everyone to help support our voice in Washington DC.

Thank You!

Wes Burley, PMAA MT State Director
